85 %

## PROJECTS

### Happy Places App (03/2021 - 05/2021)

- The person can store their favorite places or save the current location to make it a favorite one.
- Various things are used like- using GPS data, location of the user places by Google, and storing the current location.
- Using third party apps like- Dexter for permission handling and some other like rounding the images.
- Project link-> [https://github.com/prangarg/Happy\\_places](https://github.com/prangarg/Happy_places).

### Weather App (04/2021 - 05/2021)

- Read and using the data using JSON API.
- Using internet connection of the phone to get data from internet.
- Displaying weather with various other functions like-
  - 1) Sunrise and sunset time.
  - 2) Predictions of rain till 10 days.
- Project link-> <https://github.com/prangarg/Weatherapp>

### Covid Detector App (08/2020 - 10/2020)

- Takes an image of the X-ray and predicts whether the person is covid positive or not.
- Checks the image with the database and then go to results.
- Very efficient and easy to use.
- Gives world covid status as well as for local places.

## SKILLS

C

C++

Data structures and algorithm

Android development

Kotlin

Android studio

Teamwork

Communicator

Disciplined

Self management

Problem solving

Confident

## ACHIEVEMENTS CO-CURRICULAR ACTIVITIES

Initiatives taken to lead teams in events and competitions.

volleyball tournaments ,cricket tournament, quiz tournaments and puzzle competitions.

Tech-o-code at NIT Jalandhar

2nd position at this event.

## AWARDS AND CERTIFICATES

Android App Components - Intents, Activities from Coursera (04/2021 - 05/2021)

Knows about intent in android studio and switching the activity.

GEEKS FOR GEEKS CERTIFICATE  
(07/2020 - 02/2021)

Data structures and algorithms self paced course.
